His recent book *The 9 Keys of Synchronicity* (2022) which is based on his PhD, shares a comprehensive model of the factors which facilitate synchronicity and his team and leadership workshops are unique in this area. Founder of Appreciative Inquiry Proff. David Cooperrider reports:

" Philip Merry is a world leader in the application of the science of synchronicity to leadership. The brilliance of Philip Merry's 9 Keys of Synchronicity lies not only in being written with so much ease and remarkable clarity but that it will cause you to look into your own life's mirror and to realise the vast potentials that are incredibly within your grasp."

3. CLIENT COMMENTS

Steven Stone, Chief Resources and Markets Branch, UN Environment

My sincere appreciation and thanks for all your hard work and really superb facilitation of our branch retreat in October 2017. I was pleased and impressed to have someone so thoroughly comfortable in leading the group to points of learning and watching how it all unfolded so well! Through your dexterity and skill, you helped us to navigate to what I think was a widely shared feeling of satisfaction and appreciation for a job well done. You helped bring us together in a way that was truly novel and that has helped us on our way.

Prof. Dr Frank R Rijsberman – Director General, Global Green Growth

"In all this work Mr. Merry and his company have provided the highest level professional services in the area of team and leadership development. His personal style, as a trainer/coach/presenter, has received top ratings and feedback from participants from every session that I have seen. In short, I rate Philip Merry among the top ten percent of consultants I have ever worked with, and the best on leadership issues in cross-cultural settings."

Penny Lee, Senior Manager Corporate OD | Boehringer Ingelheim

Phil was the orchestrator and educator for our Global Leadership Programs responsible 6 events for over 200 people, held in Singapore, Tokyo, Shanghai and Istanbul. He was the anchor of the program, and was responsible for building a constructive climate, where people felt comfortable to contribute. We had representatives from Germany, US, UK, France, Holland, Sweden, Brazil, Mexico, Venezuela, China, Japan, South Korea, Indonesia, Malaysia, Singapore, Thailand, Philippines, India, UAE, Tunisia, South Africa and Turkey. Phil received very strong and positive feedback on his ability to build rapport and connect with people, regardless of cultural background. He had a particular skill bringing people together, and inspiring them around the topic of leadership, in a way that crossed cultures. Many of the participants still talk about the magic that Phil was able to weave during the program, and the impactful memories they have of him speaking.

John A. Malitoris, Executive Director, Duke Corporate Education

In addition to being a great speaker and educator, Phil has a wonderful way of establishing his credibility with the group while also building good relationships. Phil's strong front of the room presence, speaking skills, deep global experience (working in nearly 60 countries), good relationship building and listening skills, intelligence, and comfortable manner not only help participants relate to him but create a safe environment for learning and raising challenging questions.

Roldan C. Paraguison, PRISM Project Coordinator, PhilRice, Philippines

Philip Merry was employed by Philippine Rice Research Institute (PhilRice) to facilitate our Team Leadership Building activity. Philip is kind in nature, spoke with passion, communicated effectively to everyone, sensitive to the diverse culture of participants, and bringing much attention to details of relationships within the project structure and process. He was pleasurable to talk and work with, and everybody felt important in the team building activity. He was fair and just, giving equal opportunity to every participant. He was worried, felt concerned, and helped participants to learn and interrelate with the big group effectively regardless of culture, social standing, and rank in the organization.

HR Manager Andreas C. Bieringer African Oxygen Ltd.

"Philip Merry was our keynote speaker at our South-East and Asia Management Conference where he was giving an enormous inspiring speech and workshop facilitation to an audience of 300+ participants from more than 15 countries across South-East Asia on "Empowering People". Philip gave us practical examples and hands-on advice on the benefits of empowerment and in demonstrated to us areas where it can lead to superior results that helped our organisation to move forward in successful collaboration."

Shahruhk Marfatia - Former HR Manager Asia, Nokia

"I have known Phil Merry for a long time now, he is an extra-ordinary consultant, trainer and most importantly partner, who has the gifted ability to establish rapport and win trust with diverse audiences right away. His forte is cross cultural teambuilding, leadership and management education and assessment and development of senior level managers. I have worked very closely with Phil over the years and feel I can always turn to him in any of the above areas or indeed for coaching or counselling even top managers in very difficult situations."
